Cher Édouard,

Many thanks for the  
'Phases', 'Elemental' & 'Ellebove'. My wife  
has today sent you my payment direct  
to your CCP in Paris. I am sorry about  
the delay but the financial situation  
has recently been bleak!

The British Post Office is very  
inefficient and do not seem to understand  
international financial transactions, so if  
there are any problems about this money  
let me know!

I have just read your brief article on  
Cobra in the 'Moment' and I am very  
pleased to have something in English at  
last. For a long time I have been  
dazed by the paintings and drawings  
of Jovn et al (particularly Else Alfelt)

I often have the opportunity to travel in Denmark (my lady is Swedish) and often visit Louisiana where so much Danish Cobra is on view.

I was particularly interested in the 'fraternal' connections, I had not realised that Svahnbergs work was so widely known. I have several Danish books on Cobra which I am slowly reading, but I wonder if you can suggest any books containing reproductions of 'Movimento Nucleare', ~~also~~ also anything on the participants of Revolutionary Surrealism such as Atlan & Goetz whose work (outside Encyclopedias ~~such~~ <sup>such</sup> as Passerons) seems to be unavailable.

I realise of course that this groups existence was ephemeral, but these painters seem to have been totally neglected over here.

Yours Fraternally  
Tomy
