Cher Édouard,

Many thanks for your note dated 10th December 1979. You mentioned that the issues of Phases and Ellebove which I requested would soon arrive. They have not yet arrived - I wonder if you have been able to put them in the post?

The issues I want are Phase 1st series, 9, 10 and 11 and any issues of Ellebove which have been published.

I've enclosed a couple of photo copies of drawings, if they are of interest I can send on the ~~copy~~ originals.

I know John Lyle, mainly by telephone contact, and have recently met the 'Melmoth' group, Maddox, Nelson, Hammond, Cardinal and Zanzana in London.

I confess that I wish to avoid participation in their mutual polemic, although on recent evidence I believe that transformation has a more valid, involved, perspective,

Fraternal Greetings,

Tony Pusey

P.S. I am sorry I am unable to write in French!
