

Dear Edouard and Anne,

I have been very busy putting two shows together and therefore I did not have time to write more. And even now I am writing just a few notes.

The review about the exhibition will appear in the February ISSUE magazine.

I am enclosing few photos from the installation, which will give you an idea how the exhibition looked like.

The exhibition consisted of 67 works and 3 panels of documentation. G. H. Debevoise's 2 graphics were sold.

My son Martin will come to Paris around 20th of May and will personally return all the originals.

Thanks for the cooperation and all the best to both of you

Ludislav

P.S.

I did not received any news or the catalogue from Lisbon.
