Dear M. Jaguer,

Surrealism Unlimited (1968-1978) 17 January - 5 March 1978

Thank you indeed for sending the details of the artists and their works that you have so kindly contacted, chased and collated on our behalf for the above exhibition: we are most indebted to you for the generous manner in which you have assisted us.

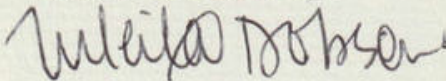

I now have a fuller list of the works being sent for the exhibition from the British and American artists as well as the French. As you may imagine everyone is extremely enthusiastic about the exhibition and we have had a tremendous response. As a result, I am unable to include every work that you have sent details of, owing to lack of space. We have therefore decided to represent each artist with up to two works only. We intend to take out the third work as listed by you when this applies.

If you have any points to make on the above matters, please contact me immediately.

Once again may I, on behalf of my Trustees, thank you for all your help in putting together the French section of this exhibition which we realise must have taken considerable time and trouble.

I look forward to hearing from you.

Yours sincerely,

Zuleika Dobson
